

The OXSI WASH Theory of Change

Vision for 2025 is for socially cohesive, safe, peaceful, resilient, and healthy communities in Central Rakhine who have increased power and agency, and freedom to enjoy their rights and equal access to opportunities and basic services.

Goal for 2023: Communities have increased resilience, agency, technical and organisational capacity, access to and involvement in managing WASH services in a safe and adaptive way, and are engaged in efforts to increase the accountability of local duty-bearers.
