# PREREQUISITES TO LOCALISATION

- That things are configured in a way that doesn't allow predation and packaging-only partnerships
  - Importance of a direct contact between the donor and the local organization (multilateral but also bilateral)
  - There should be a specific agenda of localisation organization by organization
  - To consider where exactly are the need for reinforcement of capacities vs paternalistic approach
  - Administrative charges policy from the donor, aiming at being fair, that would neutralize the possibility of predation
  - Try to simplify bureaucracy, even at level of coordination fora
  - To systematize availability of simultaneous translation in national language
