# Community managed operation & maintenance of WASH infrastructures

Presented By  
Lasi Hka Awng  
Project Manager  
13.Dec.2021

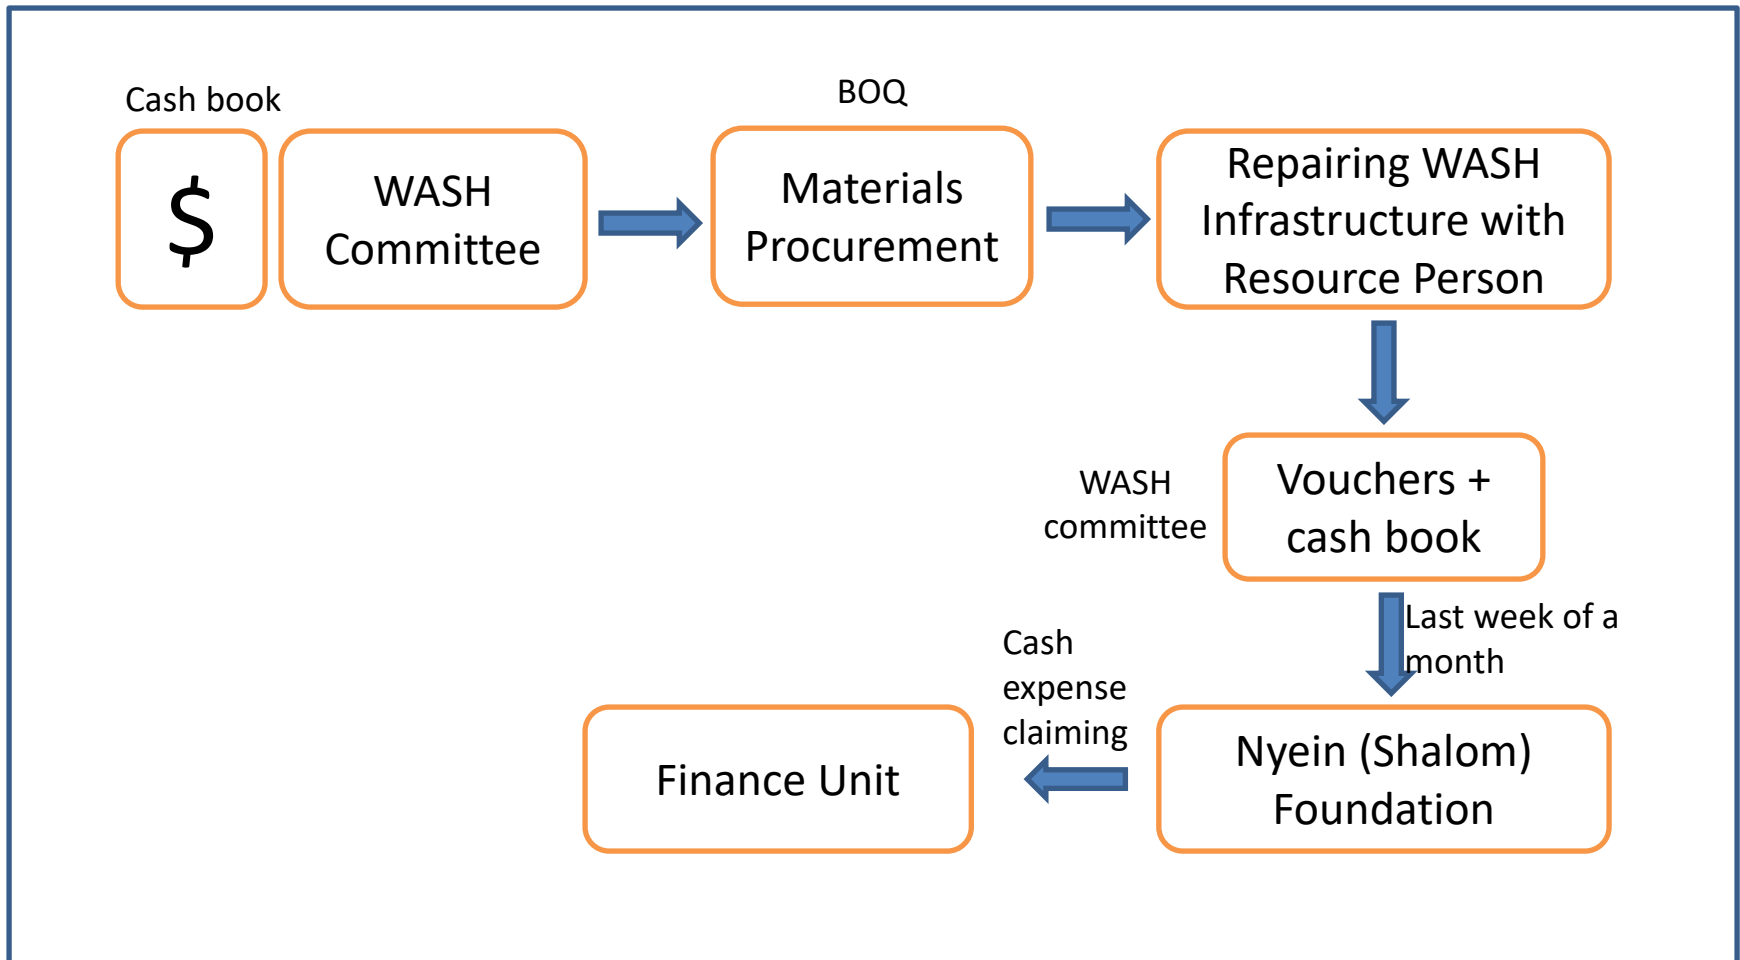

# Monthly O&M Running Cost Installation Process (2017-2021)

# Structure of O&M management in camp

# Community Manageable

- Minor repairs of WASH infrastructures
- Dealing with Municipal for desludging and solid waste management
- Operation system of water supply (fuel/electricity for pumping)
- Cleaning tools for mass cleaning campaign

## Strength

- Less dependency on agency to minor repairs
- Quicks response
- access to facilities meeting minimum standard
- Functionality of WASH committee is improving
- Productive communication with municipal
- Improve community knowledge on WASH related problems
- Community participation
- Financial management skill of WASH committee
- participatory problem solving

## Contributors

- Continuous Budget
- Technical supports (tools, guidelines, staffs' capacity strengthening), learning from others
- Regular Capacity building trainings, mentoring, accompaniment to WASH committees and volunteers by field staffs
- Close monitoring by assigned staffs
- Regular meeting with WASH committee by staffs (monthly WASH committee meeting)
- PHAST approach

## Room for improvement

- Community budget contribution (even small amount)
- Community managed major renovation
- Technical resource among community
- Gender, Disabilities inclusion concept in O&M tasks

## causes

- Limited livelihood opportunities for community
- Organization's financial policy (donor requirement)
- Community's knowledge on PSEA (to realize about abuse, corruption)
